CONNECTIVITY MADE SIMPLE.

Turn your laptop into a dual video workstation with the compact USB-C Alt. Mode Dual HDMI 4K Docking Station with 100W PD Pass-Thru. Connect your USB-C-enabled devices to two HDMI monitors, a Gigabit Ethernet network, and plug in your key peripherals like mice, keyboards, flash drives, or hard drives into the USB-A ports. Plus, access your data with the SD and Micro SD card reader/writer. You can even keep your laptop charged and powered by connecting the laptop USB-C power adapter to the USB-C port on the dock.

With no need for additional software, the adapter easily attaches to your USB-C Alt. Mode host device (including Thunderbolt™ 3) to help you connect to a wired network, more peripherals, and transfer data up to 5Gbps per port. It supports up to 100W (20V/5A) charging max. Compact and lightweight, it's easy to take along with you anywhere you go.
